

as other non-NATO countries. In the Export Administration Regulations (15 CFR 730 et seq.), the UAE is designated on Country Group D and thus is not eligible for certain license exceptions for items controlled for chemical biological and missile technology reasons. Reexports of U.S. origin goods from one foreign country to another subject to EAR are also controlled, and may require the reexporter regardless to nationality to obtain a license for reexport from BIS.

The Treasury Department's Office of Foreign Assets Control maintains a comprehensive embargo on the export, re-export, sale or supply of any good, service or technology to Iran by persons of U.S. origin, including to persons in third countries with the knowledge that such goods are intended specifically for the supply, transshipment or re-exportation to Iran (Iranian Transaction Regulations, 31 CFR 560.204). Re-exportation of goods, technology and services by non-U.S. persons are also prohibited if undertaken with the knowledge or reason to know that the re-exportation is intended specifically for Iran. (31 CFR 560.205). In addition, BIS also maintains controls on exports and reexports for items on the Commerce Control List (EAR, 15 CFR 746.7).

The lack of an effective export control system in the UAE and the use of the emirates' ports as transshipment centers has been a concern to U.S. policymakers. To that end, BIS released an advanced notice of proposed

rule-making on February 26, 2007 that would have created a new control designation: "Country Group C: Destinations of Diversion Control." This designation would have established license requirements on exports and re-exports to countries that represent a diversion or transshipment risk for goods subject to the Export Administration Regulations. According to BIS, the Country C designation was designed "to strengthen the trade compliance and export control system of countries that are transshipment hubs." Designation on the Country Group C list could lead to tightened licensing requirements for designees. Although no countries were mentioned in the notice, it was widely considered to be directed at the United Arab Emirates.

Perhaps as a response to the possibility of becoming a 'Country C' designee, the UAE Federal Council passed the emirate's first ever export control statute in March 2007. That law, also created a control body known as the National Commission for Commodities Subject to Import, Export, and Re-export Controls and that law was signed on August 31, 2007 by Emirates President H.H. Sheikh Khalifa bin Zayed Al Nahyan. Reportedly, the law's structure and control lists were modeled after the export control regime of Singapore, another prominent transshipment hub. It remains unclear, however, the extent to which the law is being en-

forced or whether resources are being devoted to preventing the diversion or illegal transshipment of controlled U.S. goods and technologies.

The United States has one export control officer (ECO) on the ground in the UAE to investigate violations of U.S. dual-use export control laws. This officer may be augmented by U.S. Foreign Commercial Officers in conducting end-use check and post-shipment verifications. A recent GAO report mentioned a "high-rate of unfavorable end-use checks for U.S. items exported to the UAE," but the report did not elaborate further.

The United States also has engaged in technical cooperation to assist the UAE in developing its export control regime. Officials from BIS and other agencies reportedly traveled to the UAE in June 2007 to discuss the proposed statute. In addition, the Department of State has also provided training through its Export Control and Related Border Security (EXBS) program. This program provides participating countries with licensing and legal regulatory workshops, detection equipment, on-site program and training advisers, and automated licensing programs. Since FY2001, UAE has received between \$172-\$350 thousand annually in this assistance. For FY2009, State has requested \$200 thousand for the UAE under this program.

RECENT U.S. AID TO UAE

	FY2007 and FY2006 (Combined)	FY2007	FY2008 (est.)	FY2009 (req)
NADR (Non-Proliferation, Anti-Terrorism, De-Mining, and Related)—Anti-Terrorism Programs (ATA)	\$1.094 million	\$1.581 million	\$300,000	\$925,000
NADR—Counter-Terrorism Financing	\$300,000 (FY2006 only)	\$580,000		\$725,000
NADR—Export Control and Related Border Security Assistance	\$250,000	\$172,000	\$300,000	\$200,000
International Military Education and Training (IMET)			\$14,000	\$15,000
International Narcotics and Law Enforcement (INCLE)			\$300,000

TRIBUTE TO RABBI STEPHEN BAARS

• Mr. LIEBERMAN. Mr. President, I wish to pay tribute to my friend Rabbi Stephen Baars, of Bethesda, MD, whom I had the honor of sponsoring as our guest Chaplain for this morning. Given all that Rabbi Baars has done to help others, it was fitting that he was picked to lead the Senate in prayer. No tribute would be complete, however, without giving Senators a greater understanding of his outstanding and unique accomplishments.

Born and raised in London, Rabbi Baars originally envisioned himself working in business or sales until, at age 19, he went on vacation to Israel and became enamored with Judaism. When he finally returned to London 6 months later, he had made up his mind to become a rabbi. Shortly thereafter, he moved back to Jerusalem, where he attended rabbinical school for 9 years through Aish HaTorah, a nonprofit network of Jewish educational centers.

After completing his studies, Rabbi Baars moved to Los Angeles to work for Aish HaTorah. It was in L.A. that he tried a second career as a stand-up comedian. On the advice of a friend, Rabbi Baars began taking comedy classes at UCLA and performing stand-up in clubs. In fact, he is the only rabbi to have performed at the famous L.A. Improv. Eventually, he would stop per-

forming because he found his spiritual work more rewarding. His comedic skills, however, would play a role in his future work, serving as means for him to get his message across to audiences.

In 1990, Rabbi Baars moved to the Washington, DC, region and began teaching Jewish studies classes throughout the DC area. Some of his students included Senators, Representatives, and top business leaders. In 1998, he established a Washington, DC, chapter of Aish HaTorah, and served as its executive director. It was there that he established his most ambitious and creative project yet. In 2002, troubled by America's high divorce rate, Rabbi Baars created BLISS, an innovative, nondenominational marriage seminar that mixes humor with advice taken from the Torah and Talmud. Always an optimist who sees the best in people, Rabbi Baars conducts these seminars and prepares his provocative "Think Again" e-mail newsletter with the belief that human beings all contain the skills and attributes they need to be good spouses and parents and that they just need to learn how to reach deep into themselves to utilize these abilities.

Rabbi Baars continues to operate BLISS, which has won rave reviews from many of its participants. Not too long ago, he was kind enough to demonstrate a sample presentation to my staff, who very much enjoyed it. He has

stated that his goal for BLISS is to help reduce the divorce rate in America to the single digits. Some may mock this goal as naive, but as Rabbi Baars says, "If you pick a goal that's reasonable to achieve, you didn't look high enough."

Of course, it should come as no surprise that someone as dedicated to helping families as Rabbi Baars is happily married. He and his wife Ruth have been together for 16 years and have been blessed with seven wonderful children. His wife and family are a constant source of strength and support for Rabbi Baars as he pursues his life's work.

Thank you, Rabbi Baars, for all you have done to bring families together. It was truly an honor to have you pray with us today.●

ENDANGERED SPECIES DAY

Mrs. FEINSTEIN. Mr. President, 2 years ago I sponsored a resolution designating the third Friday in May as Endangered Species Day. This resolution passed by unanimous consent. There were no objections. The resolution was nonpartisan and non-controversial.

The goal of Endangered Species Day was simple: to give students an opportunity to learn about the threats facing endangered and threatened species and the work being done to save them.
